## ALASKA CRUISE

Alaska is sometimes thought of as America's last frontier, with the state's rugged mountains covering huge amounts of land, and much of it largely untouched by humans. It is also home to glaciers and wide waterways, referred to as passages, bordering the thick brush of the mountains. It is these waterways that enable cruising to be such an amazing way to see Alaska. An Alaskan cruise brings passengers alongside wildlife and glaciers with panoramic views visible from the decks of the ship.
